RoHS II Statement

As of June 8, 2011, in accordance with Directive 2011/65/EU, Amatom, a Carey Manufacturing Company follows Annex 3 Section 6.

The European Union Directive (2011/65/EU), The Restriction of Hazardous Substances (RoHS), affects manufacture, seller and distributor of electrical and electronic equipment and component. Its goal is to protect the environment and human health through the restriction of certain hazardous substances in equipment.

From July 1 2006, producers of new electrical and electronic equipment must demonstrate that their products do not contain more than the maximum permitted levels of:

Lead, including lead/yin solder
Mercury
Cadmium
Alodine 1200
Gold Iridite
Hexavalent Chromium
Polybrominated Biphenyls (PBB's)
Polybrominated Diphenyl Ethers (PBDE's)
Pentabromodiphenyl Ether (PentaBDE) flame retardant
Octabromodiphenyl Ether (OctaBDE) flame retardant
Decabromodiphenyl Ether (DecaBDE) flame retardant

All of the base materials offered by Amatom comply with the requirements of RoHS.

The following finishes do not meet the requirements of RoHS, but will continue to be offered for domestic applications:

Plating / Finishes:

-3 Cadmium Plate, Clear Chromate
-3B Cadmium Plate, Color Chromate
-8 Caustic Etch
-9 Caustic Etch and Lacquer
-10 Alodine 1200
14A Electro Tin Solder 60/40
-17 Iridite-Gold-Mil-C-5541

Per Print / Custom Products

These products are manufactured from customer supplied drawings. Any changes and/or deviations to these drawings are the responsibility of the customer. Products will be manufactured to the revision stated on the applicable Purchase Order. No deviations will be made from the latest revision in order to protect our military, aerospace and defense customers.

We remain committed to our customers and our environment and will continue to take all necessary measures to ensure a healthy and prosperous future.
